

## Barefoot Addo Elephant Lodge Has All PPE Measures In Place & Are Ready For Reopening

Barefoot Addo Elephant Lodge has developed a set of safety standards to mitigate the possibility of COVID-19, ensuring we offer a combination of uncompromised safety and the luxury boutique safari lodge experience.

Our accommodation is safely spread out and rooms lend themselves to social distancing and self-isolation for our guests, offering complete peace of mind.

Employees have been trained to offer smart and contactless hospitality.

### Protecting Our Staff

Before returning to work, all staff are screened daily and isolated if necessary.

### Temperature Screening And Hand Sanitation

All guests and staff have their temperatures taken daily. Hand sanitizing stations (using industrial-strength sanitizer) have been deployed throughout suites, the lodge and vehicles, and in all guest and staff areas.

**NB: Guests to please ensure masks are worn at all times and to sanitise regularly.**

*Stay safe  
and healthy!*

### Game Drive Safety

No more than six guests per game vehicle. No sharing of binoculars or equipment. Vehicles are disinfected between drives and snacks and refreshments are individually packaged.

### Social Distancing

All of our guest accommodations are freestanding units & seating spaces in our lodges and public areas have been substantially decreased to ensure adequate social distancing for complete comfort and peace of mind.

### Food & Beverage Services

Our dining facilities have been rearranged to encourage social distancing measures. Guest meals are individually plated, observing strict food hygiene protocols, and dining areas disinfected after each meal.

### Housekeeping Protocols

Our Housekeeping staff use hotel industrial strength chemicals and have implemented strict protocols with regards to deep cleaning, as well as the frequency, of sanitizing of guest rooms and public areas.
